About This Game

In 2200, the All-Star Robot Battle started on Planet X. You, as a professional robot battle player, create your own exclusive robot and control your robot battle through mapping mode. Fight with opponents in the universe, win each battle to gain more upgraded parts. Through battles, you will grow up your skills and parts. Eventually you become the No.1 Robot Fighter in the universe!

Warbot is a VR fighting game by controlling robot through mapping mode. It's designed and built for VR immersive experience, you have high freedom of assembly which allows you to create your own unique robot! Emotional robot battle scene introduced a very immersive environment to enhance the immersive feeling.

Customize your own robot is a great way to make your robot unique and personal, and showoff to everyone in the world, leaderboard is providing great enhancement as well. Try it and play more and more, to get your own unique personalized robot in the world!

Unable to play because can't grab robot to start the game especially when the starting panel is outside my playing space.. I love mechs so I was hoping for this to be great. The combat was probably always going to be my least enjoyed part. Unfortunatley I couldn't pass the defence portion of the tutorial. It would accept my hands were in front of my face.. I ahve a 2mx2m playspace and even then I still couldn't reach the robot in the beginning, as soon as they fix this i'll recommend it but for now I can't.
